AVENTOS HK top / HK-S / HK-XS

Power factor

Power factor for AVENTOS HK top

Power factor = cabinet height (mm) x front weight including double handle weight (kg)

HK top 25 930 - 2800

HK top 29 3200 - 9000

HK top 27 1730 - 5200

☐ Lift mechanism two-sided

Power factor

Power factor for AVENTOS HK-S

Power factor = cabinet height (mm) x front weight bottom and top including handle weight (kg)

HK-S AC 220 - 500

HK-S EE 960 - 2215

HK-S CC 400 - 1000

☐ Lift mechanism two-sided

Power factor

Power factor for AVENTOS HK-XS

Power factor = cabinet height (mm) x front weight bottom and top including handle weight (kg)

HK-XS 11 200 - 1000

HK-XS 13 500 - 1500

HK-XS 15 800 - 1800

HK-XS T 11 180 - 800

HK-XS T 13 500 - 1200

HK-XS T 15 800 - 1600

☐ Lift mechanism one-sided

Power factor

- AVENTOS power factor calculation requires cabinet front size and weight
- It is recommended to use a stronger lift mechanism if power factor range is overlapping

Blum South East Asia

Blum in Austria and around the world

The company has eight plants in Vorarlberg, Austria, additional production sites in Poland, the USA and Brazil and 30 subsidiaries/representative offices. Blum supplies more than 120 markets. The Blum Group employs 7.600 people in total, 5.800 of whom work in Vorarlberg.

Global customer benefits

"Whether manufacturer, distributor, fitter or kitchen user – everybody should personally enjoy the benefits of Blum products" – that is Blum's philosophy on global customer benefits.

Innovations

To support customers with innovative fittings solutions and secure long-term success for the company, we need to consistently invest in research and development, in plants and facilities and in employee training. With more than 2.100 granted patents worldwide, Blum is one of Austria's most innovative companies.

Quality

Blum's comprehensive concept of quality does not only apply to products. Services and collaboration with customers and partners should also meet the same quality requirements.

Environment

At Blum, we believe that responsible ecological behaviour has long-term economic benefits. The longevity of products is just one of many important aspects. Other important measures include the use of environmentally-friendly processes, the intelligent use of materials and prudent energy management.

DYNAMIC SPACE

Good workflows, optimum use of storage space and top quality motion are important features of a practical kitchen. Blum's ideas for practical kitchens are designed to bring function, convenience and ergonomics to furniture interiors.
